

DEZAR
AMBIENT AIR OVERLIDER

Self-fixed plug-in
filtering block
with changeable filter

catch
fixing block

Changeable filter
(Activated charcoal fiber)

Catch
"grid filter holding"

NEW!

CLEARANCE AIR FROM TOXIC CHEMICAL ADMIXTURE

Registration certificate

№ ФСР 2009/04140, № ФСР 2011/11388, № ФСР2011/12132, № ФСР 2012/13325.

Patent Russia: № 111762, № 2306150

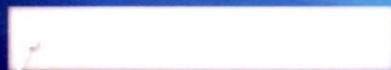

Additional functions of sterilizers with UV-lamps **DEZAR**

Filtering of air flow

Particles more than 10 microns:
dust, pollen, plant spores, mildew, fumes
of sterilization liquids, sprays.

260x90x5 mm

Filtering synthetic material
(100 % polyester)

Plug-in filtering
block

Grid filter holding

Changeable filter
CAF-KRONT or CCA-KRONT
(G2 class)

Security grid

Clearance of air flow from toxic chemical admixture

Anesthetic gases, antibiotics, formaldehydes, ammonia, alcohols,
hormone, washing, disinfection and sterilizing liquids, pair acids
and alkalis, carbon oxide (CO) and nitrogen (NO) etc.

260x90x5 mm

Reinforcing material

Activated Charcoal material

Reinforcing material
(pre-filtering for dust 10 mk)

Two strong fixing-catches allow installing plug-in filtering block
on to trunk of sterilizer.

Filtering block consists of:

- security grid,
- air filter or combined charcoal filter,
- grid filter holding for fixing filter with 2 strong catch.

Do not need any tools for assembling and installing the filtering
block and exchanging the filter.
